

9x9 NO-OP Puzzle – April 2020

This very special NO-OP puzzle was developed as an even more challenging brain exercise. The rules are the same as regular KenKen but with a twist: *the cages contain target numbers but NO operations...* you need to figure them out for yourself. **This puzzle uses all operations (addition, subtraction, multiplication and division).** If a cage has more than two squares, it uses addition or multiplication.

+ - X ÷

5	17		6	3240	14336	252		
1	11							
		22						22680
13					17			
11	120	2						
			2940		8		240	
	30		18				189	
33					80			
		72
